

SCIENCE CURRICULUM

OVERVIEW OF TOPICS

All science topics involve elements of scientific enquiry skills and where possible hand-on investigation.

R

Understanding the World - including but not limited to

- The natural world
- Similarities and difference
- Forces
- Seasons
- Material properties and changes in state

Human Body

Everyday Materials and their properties

Animals (including humans)

Plants including seasonal changes

1

2

Everyday Materials and their properties

Animals (including humans)

Plants

Living Things and their habitats

Sustainable materials

Humans

Magnets and Forces

Rocks and Soils

Light and Dark

Plants

3

4

States of Matter

Animals (including humans)

Sound

Living Things and their habitats

Electricity

Forces

Living things and their habitats

Materials and their properties

Earth and Space

Animals (including humans)

5

6

Electricity

Classification of habitats

Light

Evolution and Inheritance

Humas

We look at seasonal change throughout the year and across the Primary Phase and carry out investigations outside the classroom where possible.
