‘A curriculum of excellence from and for our community’

Temple Learning Academy’s ‘Curriculum of Excellence’ is carefully and consciously designed to work **for our community** and serves to prepare our children so that they may **understand** and **influence** the world in which they live. It is built around our CORE values of **Courage, Opportunity, Respect** and **Excellence** and is designed to **inspire**. We strive to promote **confidence** to enable every student to **excel** both socially and academically with a strong foundational knowledge and the skills and passion to successfully apply it in all subjects.

Strong and **secure relationships** form the bedrock of our curriculum, enabling students to feel **safe** in their learning and ready to confidently embrace **rigor** and **challenge** across all subjects. A commitment to improving **health** for all is also carefully woven into our curriculum to improve the physical and mental **wellbeing** of all learners.

A relentless approach to **reading, writing** and **maths** at all key stages ensures that every student is able to access the curriculum we have designed. Through constantly revisiting **foundational skills** all students are prepared for the next stage of their education or training when they leave us.

Carefully chosen, **high quality** texts **inspire** and **empower** all members of our school community through themes that reflect their **heritage** and **culture**. We encourage thoughtful **questioning** to dispel **stereotypes** or prejudice to build a cohesive, **open-minded community** within our school.

Through the key theme of **justice**, we teach our children to be **resilient**, to manage challenging relationships and learning through **reflection** and **discussion**.

By creating **collaborative connections** with communities **locally, nationally** and **globally**, we create opportunities for our students and families to experience meaningful learning **beyond the classroom**. Such links are designed to develop **ambition** in students and **confidence** in parents/carers as **active partners** in their child’s education, whilst strengthening the learning offer for **future generations in East Leeds**.

Temple Learning Academy **nurtures** individual **talents** and through carefully planned content, **exemplary teaching** and broad access to **subject specialists** all children have opportunities to **thrive**.
