You can help...

As a school our greatest responsibility is to take care of your children and ensure that they are safe and happy whilst in school; we do, of course, take that responsibility incredibly seriously. We pride ourselves in being able to deal with situations quickly and effectively. Part of this process is requiring parents/carers to speak up when they feel situations are occurring. Sometimes children will not tell us if something has happened, but may tell someone at home. If they do, please tell us using the 'Report it Sort It!' link on our school website. Alternatively, please call or email your child's Pastoral Advocate in school - we want to help!

The reporting strategies we have open to parents, carers and students to use.
